

NEXSTGEN® True Soak Off UV Top Coat Directions For Use

To Apply:

Apply a thin and even layer over traditional acrylic, dipping acrylic or UV gel polish.

Cure under in an LED or UV lamp for 60 seconds.

There is no tack layer to remove.

To Remove:

Lightly file the gloss shine off the nail to break the seal.

Apply your favorite gel removal pads soaked with acetone.

Wrap each nail with a soaked removal wrap.

Soak for several minutes, then use a gel removal tool to gently scrape the product off the nail.
