**4. FIRST AID MEASURES**

**4.1. Description of first aid measures**

General advice	Medical treatment is necessary if symptoms occur which are obviously caused by skin or eye contact with the product, or by vapour inhalation. Remove soiled soaked clothing immediately.
Inhalation	Move casualty to fresh air and keep them calm. Seek medical attention.
Skin contact	Wash off immediately with soap and water. If skin irritation occurs, seek medical attention.
Eye contact	Holding eyelids open, immediately rinse thoroughly with plenty of water. Seek medical advice.
Ingestion	Do not induce vomiting. Immediately contact a doctor.
Self protection of first-aider	No specific protection is required. Gloves are recommended.

**4.2. Most important symptoms and effects, both acute and delayed**

Causes skin and eye irritation. Skin sensitisation.

**4.3. Indication of any immediate medical attention and special treatment needed**

Seek immediate medical attention if symptoms indicate excessive exposure to eyes or skin.

**5. FIRE-FIGHTING MEASURES**

**5.1. Extinguishing media**

Suitable extinguishing media	Foam, dry powder, carbon dioxide
Unsuitable extinguishing media	Water

**5.2. Special hazards arising from the substance or mixture**

No

**5.3. Advice for firefighters**

Wear self-contained breathing apparatus and full protective clothing

**6. ACCIDENTAL RELEASE MEASURES**

**6.1. Personal precautions, protective equipment and emergency procedures**

Before cleaning any spill or leak, individuals must wear appropriate Personal Protective Equipment that is specified in section 8. Deny entry to all unprotected individuals. Remove any contaminated clothing and wash thoroughly before reuse.

**6.2. Environmental procedures**

Keep spills and cleaning runoffs out of municipal sewers and open bodies of water. Do not allow to enter drains/surface water/ground water/sewerage systems. If entry occurs IMMEDIATELY alert The Environment Agency or other equivalent appropriate body.

**6.3. Methods and material for containment and cleaning up**

Larger volumes: remove mechanically (by pumping). Use explosion-proof equipment. Smaller volumes and/or residues: contain with absorbent material (e.g. sand, diatomaceous earth, acid absorbent, universal absorbent or sawdust). Dispose of in accordance with local regulations.

**6.4. Reference to other sections**

For personal protection see section 8.  
For disposal considerations see section 13.

**7. HANDLING AND STORAGE****7.1. Precautions for safe handling**Measures to Prevent Fire

Ensure the area is well ventilated. Keep container tightly closed. Keep away from heat, sparks and open flame – no smoking. When heated above the flashpoint and/or during spraying (atomising), ignitable mixtures may form in air.

Measures to Protect the Environment

Avoid spills. Keep substance away from drains to sewer. Keep the container tightly closed.

General Occupational Hygiene

Do not eat, drink or smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

**7.2. Conditions of safe storage, including any incompatibilities**

Keep only in the original container. Protect from light. Fill the container by approx. 90% only as oxygen (air) is required for stabilisation. With large storage containers, ensure oxygen supply is sufficient to allow stability. Can polymerise with heat release.

### 8.3. Personal Protective Equipment

Hygiene measures	Store work clothes separately. Remove soiled or soaked clothing immediately. Follow the usual good standards of occupational hygiene. Clean skin thoroughly after handling. Apply skin cream.
Respiratory protection	If ventilation is insufficient, breathing apparatus (e.g. EN140) to be used in case of high concentrations, short term: filter appliance, filter A, e.g. EN141
Hand protection	Impermeable gloves, suitable glove type should be selected for each work environment. Gloves should be replaced regularly, especially after extended contact with the substance.
Eye protection	Safety glasses
Body protection	As required to minimize skin contact. Rubber Apron. Eye wash, safety shower
